---

OU dean (faculty of Informatics) P.V.Sudha, who attended as guest of honour, rolled out internship opportunities for students and FDPs for faculty offered by the Center of Excellence (AI & ML) at Osmania University. Eminent global research experts Saraju Mohanty (University of North Texas professor), A.H.Abdul Hafez (Hasan Kalyancu University-Turkey professor) and Atul Negi (University of Hyderabad professor) presented keynote sessions virtually on the conference theme.

The conference organising team including chief patron K.Krishna Rao, patrons M.Lakshmipathi Rao and Prabhu G. Benakop, convener M.Sharada Varalakshmi and co-convenor Lavanya Pamulaparty were present.

Over 250 members contributed papers for the conference and 72 papers were selected after thorough scrutiny by a panel of reviewers for publication in CREWE International Journal of Engineering and Technology published by Grenze Scientific Society and indexed by SCOPUS.
